The M Foundation's commitment to raise **\$500,000** for the ***Pave the Jungle*** campaign is designed to continue revitalizing our community. The impact will make it easy for people to be more active, while supporting our student-athletes. Our 36 month commitment is to construct a new track facility that will benefit the youth, adults, and seniors of our community.

Through investing funds for a new track facility, the Madrid community will benefit from:

- A **community-based facility**, allowing all groups and organizations an opportunity for wellness and charitable activities
- A safe and comfortable resource for youth, adults, and senior citizens for **physical rehabilitation**
- An opportunity to host events, such as Special Olympics, **generating revenue** for community businesses

Madrid schools and its present and future students will benefit from:

- A venue for **youth track and fitness programs**, including the annual elementary track and field day
- A **revenue-generating resource** from opportunity to host school, conference, and state level track meets
- A **quality facility for all our student-athletes**, including the boys' varsity track program that has won four state championships in the past 10 years

While multiple investments are encouraged in the Meter Sponsorship Program, if you choose to invest in this opportunity, the M Foundation will not expect future investment in this program.

The M Foundation is inviting you to invest in this campaign and help make a positive impact in the Madrid Community. The Meter Sponsorship Program is an opportunity to invest \$1,000 per meter of track. Your investment may be made over a 36-month installment period or lump sum. Investments may be for multiple meters and a limited number of split meters may be available.
